

## Supine Quadriceps Stretch with Strap on Table

|                  |                |                    |                 |
|------------------|----------------|--------------------|-----------------|
| <b>REPS: 3</b>   | <b>SETS: 1</b> | <b>HOLD: 30SEC</b> | <b>DAILY: 1</b> |
| <b>WEEKLY: 7</b> |                |                    |                 |

### Setup

Begin lying on your back on a table or bed with one leg hanging off the edge, holding the end of a strap that is draped over your shoulder and secured around your foot.

### Movement

Slowly pull on the strap, bending your knee until you feel a stretch in the front of your thigh. Hold this position.

### Tip

Make sure not to arch your low back during the stretch.

# Hooklying Hamstring Stretch with Strap

|           |         |             |          |
|-----------|---------|-------------|----------|
| REPS: 3   | SETS: 1 | HOLD: 30SEC | DAILY: 1 |
| WEEKLY: 7 |         |             |          |

## Setup

Begin lying on your back holding the end of a strap secured around one foot with your legs bent and feet flat on the floor.

## Movement

Straighten your leg with the strap and pull it toward yourself until you feel a stretch in the back of your thigh and hold.

## Tip

You can have a slight bend in your knee but keep your foot straight.

# Standing Quadratus Lumborum Stretch with Doorway

|           |         |             |          |
|-----------|---------|-------------|----------|
| REPS: 3   | SETS: 1 | HOLD: 30SEC | DAILY: 1 |
| WEEKLY: 7 |         |             |          |

## Setup

Begin in a standing upright position to the side of a doorframe.

## Movement

Cross your outside leg behind the other and hold onto the doorframe, then slowly lean your hips away until you feel a gentle stretch along the side of your body.

## Tip

Make sure to maintain a gentle stretch and only move in a comfortable range.

# Supine Piriformis Stretch with Foot on Ground

|           |         |             |          |
|-----------|---------|-------------|----------|
| REPS: 3   | SETS: 1 | HOLD: 30SEC | DAILY: 1 |
| WEEKLY: 7 |         |             |          |

## Setup

Begin by lying on your back with both knees bent and feet resting flat on the ground. Cross one leg over the other so your foot is resting on your knee.

## Movement

Grab your leg just below the knee and slowly draw it towards your opposite shoulder until you feel a stretch in your buttocks.

## Tip

Do not allow your back to twist or bend excessively during the stretch.

# Hip Extension with Resistance Loop

|          |         |          |           |
|----------|---------|----------|-----------|
| REPS: 10 | SETS: 3 | DAILY: 1 | WEEKLY: 4 |
|----------|---------|----------|-----------|

## Setup

Begin in a standing upright position with a resistance band looped around your ankles, holding a stable object for balance.

## Movement

Lift one leg backward, keeping your knee straight. Then bring it back to the starting position and repeat.

## Tip

Make sure to keep your abdominals tight and your back straight during the exercise.

# Hip Abduction with Resistance Loop

|          |         |          |           |
|----------|---------|----------|-----------|
| REPS: 10 | SETS: 3 | DAILY: 1 | WEEKLY: 4 |
|----------|---------|----------|-----------|

## Setup

Begin in a standing upright position with a resistance band looped around your ankles, holding a stable object for balance.

## Movement

Lift one leg to your side, keeping your knee straight. Return to the starting position and repeat.

## Tip

Make sure to keep your abdominals tight and your back straight during the exercise.

# Supine Bridge with Resistance Band

|          |         |          |           |
|----------|---------|----------|-----------|
| REPS: 10 | SETS: 3 | DAILY: 1 | WEEKLY: 4 |
|----------|---------|----------|-----------|

## Setup

Begin lying on your back with your arms laying at your sides, your legs bent at the knees and your feet flat on the ground, with a resistance band secured around your legs.

## Movement

Maintaining tension in the resistance band, tighten your abdominals and slowly lift your hips off the floor into a bridge position, keeping your back straight.

## Tip

Make sure to keep your trunk stiff throughout the exercise and your arms flat on the floor.

# Standing Anti-Rotation Press with Anchored Resistance

|           |         |             |          |
|-----------|---------|-------------|----------|
| REPS: 10  | SETS: 1 | HOLD: 10SEC | DAILY: 1 |
| WEEKLY: 4 |         |             |          |

## Setup

Begin in a standing upright position holding a resistance band in both hands that is anchored at your side.

## Movement

Press your arms straight forward. Hold briefly, then bring your arms back in and repeat.

## Tip

Make sure to keep your knees slightly bent and do not let your trunk rotate as you press the band forward.

# Supine Lower Trunk Rotation

**REPS: 10**

**SETS: 3**

**DAILY: 1**

**WEEKLY: 4**

**1**

**2**

**3**

## Setup

Begin lying on your back with your feet flat on the floor and your arms straight out to your sides.

## Movement

Lower your knees to one side, return to center, and repeat on the other side.

## Tip

Make sure to activate your core muscles and keep both of your shoulders in contact with the ground throughout the exercise.

# Supine 90/90 Alternating Toe Touch

**REPS: 10**

**SETS: 3**

**DAILY: 1**

**WEEKLY: 4**

**1**

**2**

**3**

## Setup

Lie on your back with your knees bent.

## Movement

Lift your legs off the ground to form a 90 degree angle. Slowly lower one leg, touching your toes to the floor, then return to the starting position and repeat with the opposite leg.

## Tip

Do not allow your low back to arch during the exercise.

## Office Posture

**Healthy desk posture**

**Healthy phone posture**

Having healthy posture habits prevent common neck, shoulder and back problems and also improve your mood and energy throughout the day.

Here are some quick tips to help make sitting in front of a computer more comfortable:

- Keep your monitor at eye level, and place your keyboard close to your body.
- Sit in a chair with back support to avoid slumping
- Make sure your feet are firmly planted on the ground, or use a footstool if your feet don't reach the ground
- If possible, use a desk that can be converted to a standing desk to lessen the strain on your spine

Here are some quick tips to help make talking on the phone comfortable:

- Avoid tilting your head or holding a phone between your ear and shoulder
- Use a headset or headphones when possible to keep your head in a neutral position.
- Use a speakerphone when able to avoid tilting your neck

Here are some quick tips to improve your posture while texting:

- Try to keep your phone screen at eye level to avoid bending your neck
- Keep your neck relaxed and avoid shrugging your shoulders
- Use your index finger to prevent overuse of your thumb

### General Tips

- Keep your muscles loose by taking standing or walking breaks every 30-45 minutes
- When possible, give your eyes a rest by looking away from your computer every 20 minutes and focusing on a distant object

## Lifting Techniques

**Power Lift**

**Diagonal Squat Lift**

**Golfer's Pick Up**

A power lift is good for lifting heavy objects off the floor. To perform a power lift,

- Position yourself close to the item with your feet about shoulder width apart
- Pull in your belly button to stabilize your spine and squat down by bending your knees
- Pick up the item, keeping it as close to your body as possible
- Make sure you have a firm grip on the item so it does not slip and avoid twisting your trunk when carrying the object.

A diagonal squat lift is good for lifting medium weight objects from the floor or for lifting objects out of awkward spaces. To perform a diagonal squat lift,

- Position yourself close to the item with your feet staggered widely around the item to be lifted

- Pull in your belly muscles to stabilize your spine and place one foot ahead of the other in a staggered stance
- Pick up the item, keeping it as close to your body as possible
- Make sure you have a firm grip on the item so it does not slip and avoid twisting your trunk when carrying the object.
- A Golfer's pick-up is ideal for lifting light items from the floor.

To perform a golfer's pick up,

- Position yourself close to the item you will be lifting.
- Reach down with your dominant hand while balancing on your opposite leg.
- Gently tighten your belly muscles and keep your back straight as you pick up the item. Avoid twisting your trunk throughout the movement.

## Sleep Positions

**Healthy posture for lying on back**

**Healthy posture for lying on side**

Sleep postures that are uncomfortable or cause pain can keep us from getting the rest we need. Here are some quick tips to help make sleeping restful in any position:

When lying on your back, use 1 to 3 pillows under your thighs and knees to keep your back from arching and 1 pillow under your head to keep your spine in a more comfortable position.

If you lie on your side, use a firm pillow between your knees. This will reduce stress on your hips and lower back.

Avoid sleeping on your stomach, as this can flatten the natural curve of your spine and lead to pain. If you must lie on your stomach, support your spine with pillows under your head, stomach, and legs.

Your pillow should support your neck and help it rest in a healthy and balanced position. You can

easily roll a towel at home and place it under your neck and back for support. A therapist can help you find the correct sleeping posture for your condition, as some positions are better than others, depending on your injury.
